2007

Construction Cost

\$179,000

Borough Street Receives Upgrade

April Barkasi, President of CEDARVILLE Engineering Group, LLC, was the Project Manager and Principal Engineer responsible providing professional engineering services for this publicly funded streetscape project in the heart of the Borough.

The project included the extension of a colonial lighting program along E. Walnut Street from Main Street to SEPTA Tracks. The project also included removal, repair, and installation of concrete curbs and sidewalks and the installation of handicap ramps at all intersections. Ms. Barkasi was ultimately responsible for the design, bid administration, and construction administration of the project.
