Construction Inspection Services to Philadelphia Water Department for Stormwater Contract

CEDARVILLE serves as a subconsultant for an ongoing contract to the Philadelphia Water Department (PWD) for construction inspections of private stormwater systems in the South and Northwest sections of Philadelphia. Two (2) construction inspectors are provided at the PWD Philadelphia office in support of a prime contract with Rodriguez Consulting. These inspectors report directly to PWD managers. Responsibilities include: coordination of meetings with developers and contractors, site inspections, documentation of observations, and the updating of a project tracking database.
